PROFILE

A proactive software engineer driven by curiosity, continuous learning, and practical problem-solving. I enjoy exploring ideas, challenging assumptions, and turning them into useful digital products.

EDUCATION

Nanjing Tech University · Nanjing, China Jan 2023 — Jun 2026

Bachelor in Computer Science and Technology · Major GPA 3.34 · Dean’s List 2022–2023 and 2023–2024.

SELECTED PROJECTS

EquipmentHub 2026

Public GitHub project for equipment inventory, custody, events, maintenance, weekly checks, reporting, notifications, and portable JSON backup/import using IndexedDB.

Learning Chinese Web 2026

HSK-focused learning product built with Next.js 16, React 19, TypeScript, Supabase, Hanzi Writer, and Tesseract.js, with spaced repetition, stories, games, OCR-assisted lookup, and progress insights.

Knowing Your Emotions 2026

Offline-capable multilingual PWA with a 68-emotion library, local accounts, notes, favorites, history, service-worker caching, and optional Flask/SQLite synchronization.

Compiler Project May 2025

Compiler core with tokenization, parsing, syntax analysis, intermediate representation, live syntax feedback, and an export workflow.

Personal Portfolio Jul 2026

Responsive portfolio presenting software work, academic direction, technical evidence, and professional experience.

RESEARCH & ACADEMIC WORK

Energy-Efficient Resource Scheduling in 5G

Explored energy-aware resource scheduling in 5G systems, focusing on the trade-off between resource allocation quality and energy use.

EXPERIENCE

PPIT Nanjing Aug 2022 — Aug 2023

Supported social and cultural events for 400+ Indonesian students and created multimedia and promotional material for community communication.

Private Tutor Sep 2017 — Oct 2020

Provided personalized Mathematics, Chemistry, and English tutoring for junior and senior high school students.

TECHNICAL SKILLS

Python · Java · C++ · C# · HTML · CSS · JavaScript · React.js · MySQL · SQLite · Android Studio · Django

LANGUAGES

Bahasa Indonesia · English · Simplified Chinese
